

St. Vincent de Paul of Alameda County Annual Report 2018

In His Own Words: Larry

"I was at rock bottom. I was comfortable where I was in life. After my third week in the SVdP shelter I went directly to a recovery program. I got clean.

"I work the graveyard shift at the post office. I drive to Oakland from Suisun City. My car broke down so I went to the shop where my buddy works and came back to SVdP to wait for the repair. It's a very safe and warm place here.

"My kids and grandchildren make me the most proud. My biggest goal is staying clean. When I'm clean, everything works for me."

Our mission is to feed, clothe, house and heal those in need in our communities. We couldn't do it without you.
